Data Privacy Policy

Category B — Policy & Process Knowledge Base

Document ID	AW-LEG-011
Version	1.1
Last Updated	August 2026
Department	Legal & Compliance
Company	Aether Wireless
Classification	Internal — Training & Reference

Overview

Aether Wireless is committed to protecting the privacy and security of our customers' personal information. This Data Privacy Policy ("Policy") outlines how we collect, use, store, and protect your data across all of our wireless services, mobile applications, and customer support channels. We believe in transparency regarding the information we gather and the purposes for which it is used, ensuring you maintain control over your personal data.

This Policy is designed to comply with applicable data protection laws, including the California Consumer Privacy Act (CCPA) and the General Data Protection Regulation (GDPR). Regardless of where you reside, Aether Wireless applies these comprehensive privacy standards to all customers, recognizing that strong data protection benefits everyone we serve. Our legal basis for processing personal data includes contractual necessity, our legitimate business interests, legal obligations, and, where required, your explicit consent.

We encourage you to review this Policy in full to understand our practices. If you have questions or wish to exercise your privacy rights, our Privacy Center is available through the Aether Wireless mobile app or by contacting our Customer Privacy Team. We will never sell your personal information to third parties, and we limit data sharing to circumstances necessary for service delivery, contractual obligations, or legal requirements.

Data We Collect

Aether Wireless collects information necessary to provide reliable wireless services, maintain your account, improve our network, and deliver customer support. The following table details the categories of personal data we collect, the specific data elements within each category, and the sources from which we obtain this information.

Data Category	Specific Data Elements	Source
Account Information	Full name, email address, phone number, billing address, account number, username, password (encrypted), account creation date, subscription plan details, payment method on file, authorized users	Direct customer input, account registration, customer support interactions

Data Category	Specific Data Elements	Source
Payment Information	Credit/debit card numbers (tokenized), billing history, payment method details, bank account information (for ACH payments), transaction amounts and dates	Payment processors, customer-provided payment methods, billing system
Device Information	Device make and model, International Mobile Equipment Identity (IMEI), Media Access Control (MAC) address, operating system version, unique device identifiers, SIM card information, hardware specifications	Automatic collection from devices connecting to our network
Usage Data	Call logs (duration, timestamps, dialed numbers), text message records, data usage volumes, bandwidth consumption, network performance metrics, app usage patterns	Automatic network monitoring, billing systems
Location Data	Cell tower triangulation coordinates, GPS coordinates (when location services enabled), historical location data, proximity to network towers, approximate geographic region	Network infrastructure, device location services, mobile applications
App Usage	App launch frequency, feature interactions, settings preferences, in-app behavior, crash reports, diagnostic data	Aether Wireless mobile applications, customer settings
Support Interactions	Customer service call recordings (with notice), chat transcripts, email correspondence, troubleshooting notes, repair/replacement records, warranty claims	Customer support systems, field technician reports

We collect this data through multiple channels: directly from you when you create an account or use our services; automatically through our network and your connected devices; and from third-party sources such as credit bureaus (for identity verification) and device manufacturers (for compatibility information). The provision of certain data elements is necessary for service activation—specifically, account and payment information are required to establish and maintain your wireless service.

How We Use Your Data

Aether Wireless processes your personal data for specific, defined purposes that enable us to deliver your wireless services and fulfill our contractual obligations. We never sell your personal information to third parties, and we maintain strict controls over how your data is shared. The following principles govern all data processing activities.

Data Usage Principles

- **Never Sold:** Aether Wireless does not sell, rent, trade, or otherwise disclose your personal information to third parties for monetary or other valuable consideration. Your data remains under your control.
- **Contractual Sharing Only:** We share data with third parties solely as necessary to provide services you have requested, fulfill our contractual obligations, or meet legal requirements. All such sharing is governed by data processing agreements that require the same level of privacy protection we provide.

- **Retention Limits:** We retain personal data only for as long as necessary to fulfill the purposes outlined in this Policy, comply with legal obligations, resolve disputes, and enforce our agreements. Specific retention periods vary by data category and are detailed in our Data Retention Schedule.
- **Deletion on Request:** You have the right to request deletion of your personal data, subject to certain legal exceptions. Upon receiving a verified deletion request, we will remove your data from our active systems and, where feasible, from our backup systems within 30 days.

Primary Purposes for Data Processing

We use your collected data to provide, maintain, and improve the following:

- **Service Delivery:** Activating and maintaining your wireless connection, processing calls and text messages, enabling data connectivity, managing your account and billing, and providing network coverage as contracted.
- **Network Operations:** Monitoring network performance, conducting capacity planning, optimizing signal strength, performing maintenance, and ensuring network security and fraud prevention.
- **Customer Support:** Responding to service inquiries, troubleshooting technical issues, processing warranty claims, handling billing disputes, and providing technical assistance through phone, chat, or email.
- **Billing and Payments:** Processing monthly charges, managing payment methods, sending invoices, handling late payments, issuing refunds, and maintaining financial records required by law.
- **Service Improvement:** Analyzing usage patterns to develop new features, improving network reliability, enhancing customer experience, and personalizing service recommendations.
- **Legal Compliance:** Responding to valid legal requests from regulators, law enforcement, or courts; complying with tax and financial reporting requirements; and meeting regulatory obligations specific to telecommunications providers.

Third-Party Sharing

We may share personal data with the following categories of third parties, solely for the purposes specified and under strict contractual protections:

Third-Party Category	Shared Data Elements	Purpose	Protection Standard
Payment Processors	Tokenized payment data, billing amounts, transaction dates	Processing recurring payments and one-time transactions	PCI-DSS Compliant
Network Vendors and Carriers	Anonymized network usage statistics, device identifiers (de-identified), geographic coverage metrics	Network infrastructure maintenance, roaming partnerships, interconnect services	Anonymized data only; contractual data protection
Customer Support Platforms	Account information, support ticket details, communication history	Providing customer service through outsourced support partners	AES-256 encrypted; data processing agreements
Regulators and Law Enforcement	As required by valid legal process	Compliance with law enforcement requests, regulatory inquiries, legal proceedings	Per applicable law; documented requests only

We do not share personal data with third parties for marketing or advertising purposes. Any sharing beyond what is necessary for service delivery requires your explicit consent, and you may revoke such consent at any time

through your account settings or by contacting Customer Privacy.

Data Usage Principles

Aether Wireless is committed to maintaining the highest standards of data privacy and transparency in how we handle your personal information. Our data usage practices are built on foundational principles that prioritize your privacy and control over your personal data.

We Never Sell Your Data

Aether Wireless does not sell, rent, or trade your personal information to third parties for any purpose. Your customer data is an asset that supports the services we provide to you, and we will never monetize it through sales to data brokers, advertisers, or other external entities. This commitment is absolute and applies to all categories of personal information we collect, including but not limited to account information, usage data, location data, and device information.

Contractual Sharing Only

When we share your data with third-party service providers, we do so only under strict contractual obligations that bind those parties to the same privacy standards we maintain. These contracts specify the purpose for which data may be used, prohibit unauthorized retention or further sharing, and require appropriate security measures. Third-party sharing is limited to entities that perform essential functions on our behalf, such as payment processing, network operations, and customer support services. All such sharing is conducted under data processing agreements that meet the requirements of both CCPA and GDPR.

Retention Limits

Aether Wireless retains your personal information only for as long as necessary to fulfill the purposes for which we collected it, including for the satisfaction of any legal, accounting, or reporting requirements. We have defined retention periods for each category of data we collect, and we regularly review our data inventory to ensure we do not retain information beyond what is required. When data is no longer needed for its original purpose or at the end of its retention period, we securely delete or anonymize the information in accordance with our data retention schedule.

Deletion on Request

You have the right to request the deletion of your personal information from our systems at any time. Upon receiving a verified deletion request, we will remove your personal data from our active databases and instruct any third-party processors to do the same, unless we are legally required to retain certain information. There are limited exceptions to this right, such as when we must retain data to comply with legal obligations, resolve disputes, enforce our agreements, or protect the security of our network and other customers.

Your Privacy Rights

Under both the California Consumer Privacy Act (CCPA) and the General Data Protection Regulation (GDPR), you have specific rights regarding your personal information. The following table outlines the privacy rights available to you as an Aether Wireless customer, along with the paths to exercise each right through our mobile applications and online portals.

Privacy Right	Description	How to Exercise
Right to Access	You may request a copy of all personal data we hold about you, including account details, usage history, and transaction records.	Open Aether Wireless App → Profile → Privacy Center → Request Data Copy
Right to Correction	You may request that we correct inaccurate or incomplete personal information in our records.	Open Aether Wireless App → Profile → Account Details → Edit Information
Right to Deletion	You may request that we delete all personal data we hold about you, subject to legal retention requirements.	Open Aether Wireless App → Profile → Privacy Center → Delete My Data
Right to Portability	You may request your personal data in a structured, commonly used, machine-readable format to transfer to another service provider.	Open Aether Wireless App → Profile → Privacy Center → Download My Data
Right to Opt-Out of Marketing	You may opt out of receiving marketing communications, including promotional messages, special offers, and advertising.	Open Aether Wireless App → Profile → Notifications → Marketing Preferences
Right to Restrict Processing	You may request that we limit how we process your personal data, though we may still retain it for certain legal purposes.	Open Aether Wireless App → Profile → Privacy Center → Restrict Processing

Additional Rights Under GDPR

If you are located in the European Economic Area (EEA) or are otherwise protected by GDPR, you have additional rights including the right to object to processing based on legitimate interests, the right to withdraw consent at any time where processing is based on consent, and the right to lodge a complaint with your local data protection authority. To exercise these additional rights or if you have questions about how we process data specific to GDPR, please contact our Data Protection Officer at dpo@aetherwireless.com.

Exercising Your Rights

Aether Wireless has designed streamlined processes to help you exercise your privacy rights quickly and efficiently. We are committed to responding to your requests within the timeframes required by applicable law.

How to Submit a Request

For most privacy rights, you can exercise your rights directly through the Aether Wireless mobile application by navigating to the Privacy Center within your profile settings. The Privacy Center provides a self-service interface where you can access, correct, download, or delete your personal information, manage marketing preferences, and submit formal requests. For the Right to Restrict Processing or for requests that require verification beyond app authentication, you may also submit a request by contacting our Customer Privacy Team via email at privacy@aetherwireless.com, by calling 1-800-AETHER-1, or by mail to Aether Wireless Privacy Team, 1250 Wireless Boulevard, Cupertino, CA 95014.

Verification of Identity

To protect your personal information from unauthorized access or modification, we are required to verify your identity before processing privacy requests. If you submit a request through the Aether Wireless app,

authentication is performed using your existing login credentials. If you submit a request through other channels, we may ask you to provide additional information sufficient to confirm your identity, such as your account number, the last four digits of your payment method on file, or answers to security questions.

Response Timeframes

We will acknowledge receipt of your privacy request within 10 business days and provide a substantive response within 30 calendar days, as required by CCPA. For GDPR requests, we will respond within one month of receiving your request, though we may extend this by an additional two months for complex requests or high volumes of requests, in which case we will inform you of the extension and the reasons for the delay. If we cannot fulfill your request in whole or in part, we will provide an explanation of the basis for our denial.

No Discrimination for Exercising Rights

Aether Wireless does not discriminate against any customer for exercising their privacy rights. You will not be denied service, charged different prices, or provided a different level of service because you choose to exercise any of the privacy rights afforded to you under CCPA, GDPR, or other applicable data protection laws.

Assistance and Support

If you need assistance exercising your privacy rights or have questions about this policy, our Customer Privacy Team is available to help. You can reach us at privacy@aetherwireless.com or by calling 1-800-AETHER-1 Monday through Friday, 8:00 AM to 6:00 PM Pacific Time. For urgent matters involving potential data breaches or security concerns, please contact our Security Operations Center immediately at security@aetherwireless.com.

Third-Party Data Sharing

Aether Wireless is committed to protecting your personal data and ensuring transparency regarding how we share information with third parties. We **do not sell** your personal data to any third parties under any circumstances. All data sharing is conducted strictly on a contractual basis, meaning third parties are bound by legally enforceable agreements that require them to maintain the same level of data protection as outlined in this policy.

When we share data with third-party service providers, we do so only for specific business purposes such as processing payments, maintaining our network infrastructure, or providing customer support. These providers are prohibited from using your data for any purpose other than delivering the services we have contracted them to perform. We conduct due diligence reviews of all third-party vendors to ensure they meet our security and privacy standards before any data is shared.

Third-Party Sharing Overview

Third-Party Category	Data Shared	Protection Standard	Purpose
Payment Processors	Payment information (credit card details, billing address)	PCI-DSS Compliant	Processing recurring monthly bills, one-time purchases, and deposit refunds
Network Equipment Vendors	Anonymized network performance data	Contractual confidentiality, anonymization before transfer	Network maintenance, capacity planning, infrastructure optimization
Customer Support Platforms	Support ticket information, communication history	End-to-end encryption (AES-256), access logging	Resolving technical issues, billing inquiries, and service troubleshooting

Third-Party Category	Data Shared	Protection Standard	Purpose
Legal & Regulatory Authorities	Personal data as legally required	Per applicable law (subpoena, court order, regulatory demand)	Compliance with legal obligations, law enforcement requests, regulatory oversight

All third parties located outside of your jurisdiction are required to enter into Standard Contractual Clauses (SCCs) or equivalent legal mechanisms to ensure an adequate level of data protection consistent with this policy and applicable law. We maintain a current list of all third-party processors and conduct annual reviews to verify continued compliance with our data protection requirements.

Data Security Measures

Aether Wireless employs a multi-layered security approach to protect your personal data against unauthorized access, alteration, disclosure, or destruction. Our security infrastructure is designed with defense-in-depth principles, implementing controls at every layer of our technology stack from physical security to application-level protections.

Encryption Standards

All personal data stored on our systems is encrypted at rest using **AES-256 encryption**, the industry-standard algorithm approved for protecting sensitive information. Data transmitted between your devices and our servers is protected in transit using **TLS 1.3** (Transport Layer Security), ensuring that your communications cannot be intercepted or tampered with during transmission. Our TLS implementation is configured to use only strong cipher suites and is regularly updated to address emerging vulnerabilities.

Access Controls

Access to customer personal data is restricted on a need-to-know basis. All employees who require access to customer data must complete annual security awareness training and are subject to **background verification checks** prior to employment. Employee access to personal data is logged and audited quarterly by our internal security team. Any access that falls outside of established parameters triggers automated alerts for investigation.

Multi-Factor Authentication (MFA) is required for all employee accounts accessing internal systems that contain customer data. We utilize hardware security keys or authenticator applications for second-factor verification, ensuring that compromised passwords alone cannot grant access to sensitive systems.

Security Testing and Incident Response

Aether Wireless conducts **annual penetration testing** performed by independent third-party security firms. Additionally, our internal security team performs continuous automated vulnerability scanning of our infrastructure and applications. All critical and high-severity findings are remediated within 30 days of discovery, with medium-severity issues addressed within 90 days.

In the event of a data breach affecting your personal data, we maintain a documented incident response plan activated immediately upon detection. We will notify the relevant supervisory authority within **72 hours** of confirming a breach, as required by GDPR Article 33. If the breach is likely to result in a high risk to your rights and freedoms, we will also notify affected customers directly without undue delay, providing clear information about the nature of the breach and the steps we are taking to address it.

Data Retention

Aether Wireless retains your personal data only for as long as necessary to fulfill the purposes for which we collected it, including for the purposes of satisfying any legal, accounting, or reporting requirements. The specific retention periods for each category of personal data are determined by legal obligations, regulatory requirements, and our legitimate business needs.

When determining the appropriate retention period, we consider the amount, nature, and sensitivity of the personal data, the potential risk of harm from unauthorized use or disclosure, the purposes for which we process the data, and whether we can achieve those purposes through other means. Once the retention period expires, your personal data is securely deleted or anonymized in accordance with our data disposal procedures.

Data Retention Periods

Data Category	Retention Period	Legal/Business Justification
Account Information	7 years after account closure	Tax and financial record retention requirements, dispute resolution
Payment & Billing Records	7 years after transaction	PCI-DSS requirements, tax compliance, financial auditing
Call Metadata (duration, timestamp, routing)	18 months from date of call	Network optimization, fraud prevention, emergency service requirements
Location Data (cell tower, GPS)	12 months from collection	Network coverage analysis, service quality improvement, emergency services
Customer Support Interactions	3 years from case closure	Dispute resolution, service improvement, regulatory inquiries
App Usage Analytics	24 months from collection	Product improvement, user experience optimization, feature development

For accounts that are suspended rather than closed, the retention periods above apply from the date of suspension. If you request deletion of your personal data, we will honor this request subject to the exceptions noted in the Customer Rights section, including situations where we are required to retain data to comply with legal obligations or to resolve pending disputes.

Upon expiration of the applicable retention period, data is permanently deleted from our active systems. Backed-up data is retained for an additional 6 months after deletion from active systems before being securely overwritten. Anonymized data that cannot be linked to you may be retained indefinitely for statistical analysis and aggregate reporting purposes.

Children's Privacy

Aether Wireless is committed to protecting the privacy of children. We do not knowingly collect, maintain, or process personal information from individuals under the age of 13. Our services and platforms are not designed for, nor directed toward, children under 13.

For minors under the age of 18 but above 13, we recognize that additional protections are required. Parents or legal guardians may authorize the creation of an account on behalf of a minor, or minors may create their own accounts, but such accounts are subject to parental consent requirements. Before collecting any personal information from a minor between the ages of 13 and 17, we require verifiable parental consent from a parent or legal guardian. This consent must be obtained through one of the following methods:

- Signing a consent form provided by Aether Wireless and returning it via email or postal mail

- Completing a telephone consent process with a trained representative who verifies the caller's identity
- Using a credit card transaction that verifies the account holder's identity through third-party verification services

Parents or legal guardians who have provided consent for their minor child to use Aether Wireless services retain the right to review, update, or delete the child's personal information at any time. To exercise these rights, parents should contact our Privacy Team using the contact information provided in the "Contact Us" section of this policy. We may request verification of identity before processing any such requests.

We do not condition participation in any service on the provision of more personal information from a minor than is reasonably necessary for that service. If we become aware that we have inadvertently collected personal information from a child under 13 without verified parental consent, we will promptly delete such information from our systems.

International Data Transfers and Legal Basis

Aether Wireless operates primarily within the United States. However, in certain circumstances, personal information may be transferred to, processed in, or accessed from countries outside the United States, including countries within the European Economic Area (EEA) or other jurisdictions with data protection laws similar to GDPR.

When we transfer personal information internationally, we ensure that appropriate safeguards are in place to protect that information. These safeguards include:

- Standard Contractual Clauses (SCCs) approved by the European Commission for transfers to countries without an adequacy decision
- Binding Corporate Rules (BCRs) for intra-group transfers
- Verification that the recipient has implemented adequate technical and organizational measures to protect personal information

The legal basis for processing personal information under this policy depends on the nature of the data and the purpose of processing. Aether Wireless relies on the following legal bases:

- **Contractual Necessity:** Processing is necessary to fulfill our contractual obligations to customers, including providing wireless services, billing, customer support, and service improvements.
- **Legal Obligation:** Processing is necessary to comply with legal requirements, such as tax reporting, fraud prevention, regulatory compliance, and law enforcement requests.
- **Legitimate Interests:** Processing is necessary for our legitimate business interests, provided these interests are not overridden by the rights and freedoms of data subjects. This includes network security, service improvement, and direct marketing (with opt-out options).
- **Consent:** For certain processing activities, particularly marketing communications, location-based services, and processing of sensitive personal information, we rely on explicit consent where required by law. Consent can be withdrawn at any time without affecting the lawfulness of processing based on consent before its withdrawal.

For residents of the EEA and other jurisdictions requiring a legal basis for processing, we ensure that all processing activities are conducted under one of the lawful bases specified above. To exercise any rights related to international data transfers or our legal basis for processing, please contact our Privacy Team.

CCPA Rights and Disclosures

For California residents, the California Consumer Privacy Act (CCPA) and the California Privacy Rights Act (CPRA) grant specific rights regarding personal information. This section describes those rights and how to exercise them.

Right to Know

California residents have the right to request that Aether Wireless disclose what personal information we collect, use, and share. Specifically, you may request the following:

- The categories of personal information we have collected about you
- The specific pieces of personal information we hold about you
- The categories of sources from which personal information is collected
- The business or commercial purpose for collecting or selling personal information
- The categories of third parties with whom we share personal information

Right to Delete

You have the right to request deletion of your personal information, subject to certain exceptions. We may deny a deletion request if retaining the information is necessary for us or our service providers to:

- Complete a transaction or provide a service you requested
- Detect security incidents or protect against malicious activity
- Comply with legal obligations
- Exercise free speech or other legal rights
- Conduct research in the public interest
- Enable internal uses reasonably aligned with consumer expectations

Right to Correct

You have the right to request correction of inaccurate personal information. Upon receiving a correction request, we will use commercially reasonable efforts to update our records.

Right to Portability

You have the right to request a copy of your personal information in a portable, commonly used, and machine-readable format.

Right to Opt-Out of Sale

Aether Wireless does **not sell** your personal information. We do not rent, sell, or share personal information with third parties for their direct marketing purposes. We do not sell personal information to data brokers or similar entities.

Right to Limit Use of Sensitive Personal Information

You have the right to limit our use of sensitive personal information to that which is necessary to provide the services you requested. We only use sensitive personal information as permitted by law.

How to Exercise Your Rights

California residents may exercise these rights through the following methods:

Right	Method to Exercise	App Path
Access / Know	Online portal, call, or email	Settings → Account → Privacy Center → Request My Data
Correction	Online portal, call, or email	Settings → Account → Privacy Center → Correct My Data
Deletion	Online portal, call, or email	Settings → Account → Privacy Center → Delete My Account
Portability	Online portal or email	Settings → Account → Privacy Center → Download My Data
Opt-Out of Sale	Online form or phone	Settings → Account → Privacy Center → Do Not Sell My Data
Limit Use of Sensitive Info	Online portal or phone	Settings → Account → Privacy Center → Limit Data Use

To exercise any of these rights, you may also contact us at:

- **Phone:** 1-800-AETHER-1 (1-800-234-8371)
- **Email:** privacy@aetherwireless.com
- **Online:** www.aetherwireless.com/privacy-request

We will verify your identity before processing any request. We may request additional information to confirm your identity, such as your account number, last four digits of your phone number, or other account-related details.

Response Timeline

We will respond to your request within 45 days of receipt. If we need more time, we will notify you and may take up to an additional 45 days, for a total of 90 days. Responses will be provided free of charge, except for repetitive or unreasonable requests, for which we may charge a reasonable fee.

Non-Discrimination

Aether Wireless will not discriminate against any consumer for exercising their CCPA rights. This includes no denial of services, no different pricing, and no difference in service quality for consumers who exercise their privacy rights.

Categories of Personal Information Collected

In the preceding 12 months, Aether Wireless has collected the following categories of personal information:

Category	Examples
Identifiers	Name, email address, phone number, account number, IP address
Commercial Information	Billing history, service subscriptions, payment records
Device Information	Device identifiers, operating system, hardware model
Usage Data	Data usage amounts, call logs, message logs, app usage
Location Data	Cell tower data, GPS coordinates, approximate location
Professional Information	Business account details, employer information
Inferences	Service preferences, usage patterns, customer segment

Third-Party Sharing

We do not sell personal information. We may share personal information with the following categories of third parties for business purposes:

- Payment processors (subject to PCI-DSS compliance)
- Network infrastructure vendors (anonymized data only)
- Customer support platforms (encrypted transmission)
- Regulatory and law enforcement authorities (as required by law)

For more information about our privacy practices, please refer to the full Data Privacy Policy or contact our Privacy Team.

Policy Updates and Changes

Aether Wireless reserves the right to modify, update, or amend this Data Privacy Policy at any time to reflect changes in our data practices, regulatory requirements, or operational needs. When material changes are made to this policy, Aether Wireless will provide customers with at least thirty (30) days' notice before the updated policy takes effect. Material changes include, but are not limited to, modifications to the types of personal data we collect, the purposes for which we use personal data, the categories of third parties with whom we share personal data, or significant changes to customer rights under this policy.

Notice of material changes will be communicated to customers through one or more of the following channels: a prominent notice displayed in the Aether Wireless mobile application, an email notification sent to the customer's registered email address, a notification in the customer's online account portal, or a message included with the customer's monthly billing statement. Customers are encouraged to review any notice of policy updates and to familiarize themselves with the revised terms. The version number and last updated date displayed at the beginning of this policy will always reflect the most current version.

For non-material changes, such as grammatical corrections, clarifications that do not affect customer rights, or updates to contact information that do not alter the substance of this policy, Aether Wireless may implement such changes without prior notice, and the updated policy will be posted immediately to our website and mobile application. The continued use of Aether Wireless services following the effective date of any policy update constitutes the customer's acceptance of the revised terms. If a customer does not agree to a material change to this policy, they may exercise their right to terminate service in accordance with the Aether Wireless Terms of Service or close their account by contacting customer support.

Contact Information

Aether Wireless is committed to addressing customer questions, concerns, and requests related to data privacy and the handling of personal information. Customers may contact the company through the following channels depending on the nature of their inquiry:

General Privacy Inquiries and Questions

For questions about how Aether Wireless collects, uses, stores, or shares personal data, or for general questions about this Data Privacy Policy, customers may contact the Privacy Team via the following methods:

- **Online:** Submit an inquiry through the Privacy Hub section of the Aether Wireless website at www.aetherwireless.com/privacy

- **Phone:** Call the Privacy Hotline at 1-800-AETHER-1 (1-800-238-4371), available Monday through Friday, 8:00 AM to 6:00 PM Eastern Time, excluding major holidays
- **Mail:** Written inquiries may be mailed to Aether Wireless, Privacy Team, 1200 Wireless Boulevard, Suite 500, Austin, TX 78701

Data Subject Rights Requests

For requests to exercise customer rights—including but not limited to access, correction, deletion, portability, marketing opt-out, or restriction of processing—customers may submit requests through the following methods:

- **Mobile Application:** Navigate to Settings > Account > Privacy Center > Data Rights Request within the Aether Wireless mobile application
- **Online:** Submit a rights request through the Privacy Hub at www.aetherwireless.com/privacy/rights
- **Phone:** Call 1-800-AETHER-1 and follow the prompts for Data Rights Requests to speak with a representative trained in privacy compliance
- **Mail:** Complete the Data Subject Request Form available at any Aether Wireless retail location or download it from the website, then mail to Aether Wireless, Data Rights Team, 1200 Wireless Boulevard, Suite 500, Austin, TX 78701

Aether Wireless will respond to data subject rights requests within the timeframes required by applicable law. For California residents under the CCPA, Aether Wireless will respond within 45 days of receipt of a verifiable request, with a possible 15-day extension when necessary. For EU residents under the GDPR, Aether Wireless will respond within 30 days, with a possible 60-day extension for complex requests.

Data Protection Officer

For matters requiring escalation or for inquiries directed specifically to Aether Wireless's Data Protection Officer (DPO), customers may contact:

- **Email:** dpo@aetherwireless.com
- **Mail:** Data Protection Officer, Aether Wireless, 1200 Wireless Boulevard, Suite 500, Austin, TX 78701

Reporting Data Breaches or Security Concerns

Customers who suspect unauthorized access to their personal data, believe they have been the victim of identity theft related to Aether Wireless services, or wish to report a potential data security incident should contact:

- **Phone:** 1-800-AETHER-1, select option 3 for Security Incidents (available 24/7)
- **Email:** security-incident@aetherwireless.com
- **Online:** Submit a report through the Security section of the Aether Wireless website at www.aetherwireless.com/security-report

Aether Wireless takes all privacy concerns seriously and is committed to resolving issues in a timely and transparent manner. Customers may expect an initial acknowledgment of their inquiry within three (3) business days, with a detailed response to follow. For complaints regarding data handling that cannot be resolved directly with Aether Wireless, customers may have the right to lodge a complaint with their local data protection authority.

Q: What personal data does Aether Wireless collect, and why?

A: We collect account information, payment information, device information, usage data, location data, app usage data, and support interactions. This data is used solely to provide and improve our services, process

payments, and deliver customer support.

Q: Does Aether Wireless sell my personal data?

A: No. We never sell your personal data. We only share data with third parties under contractual agreements for specific purposes such as payment processing, network operations, and customer support.

Q: How can I access, correct, or delete my personal data?

A: You can access, correct, or delete your data through the Aether Wireless app or website. You also have the right to request data portability, opt out of marketing communications, and request restrictions on processing your data.

Q: How does Aether Wireless protect my data?

A: We protect your data using AES-256 encryption at rest and TLS 1.3 encryption in transit. Additional security measures include multi-factor authentication, audited employee access controls, regular penetration testing, and a 72-hour breach notification protocol.

Q: How long does Aether Wireless retain my data?

A: We retain data according to the following schedule: account data for 7 years after closure, payment data for 7 years, call metadata for 18 months, location data for 12 months, support records for 3 years, and app usage data for 24 months.

Q: Does Aether Wireless collect data from children?

A: We do not knowingly collect data from children under 13. For minors under 18, we require parental consent before collecting any personal information.

Q: How will I be notified of changes to this policy?

A: We provide 30 days' notice for any material changes to this policy. Updates will be communicated via email or through the Aether Wireless app.
