Version	1.0
Last Updated	August 2026
Department	Legal & Compliance
Company	Aether Wireless
Classification	Internal — Training & Reference

Overview

Aether Wireless is committed to protecting the privacy and personal data of our customers. This Privacy & Data Protection Policy outlines our practices regarding the collection, use, storage, and sharing of customer information in compliance with applicable data protection laws and regulations. We believe in transparency and empower our customers with control over their personal data while ensuring the security and integrity of all information entrusted to us.

Privacy & Data Protection Policy

Data We Collect

We collect the following categories of personal data to provide and improve our telecommunications services:

Data Category	Description	Examples
Account Information	Personal details required for service provisioning	Name, address, email, phone number, date of birth
Payment Information	Financial data for billing and payment processing	Credit card details, billing address, payment history
Device Information	Technical data about customer devices	Device model, IMEI, operating system, signal strength
Usage Data	Information about service utilization	Call logs, SMS metadata, data usage volumes
Location Data	Geographic information (with consent)	Cell tower connections, GPS coordinates (when enabled)
App Usage	Data from mobile applications and online services	App interactions, feature usage, crash reports
Support Interactions	Records of customer service communications	Chat transcripts, call recordings, ticket history

Data Usage Principles

We adhere to strict principles governing how we use your personal data:

- **Purpose Limitation:** We collect and use personal data only for clearly stated, legitimate purposes related to providing telecommunications services
- **No Data Sales:** We never sell personal data to third parties for marketing or other commercial purposes
- **Service Provider Relationships:** Any third-party access to personal data is limited to contract-bound service providers who assist in delivering our services
- **Retention Limits:** We retain personal data only as long as necessary for stated purposes or as required by law
- **Deletion Rights:** Customers have the right to request deletion of their personal data, subject to legal retention requirements

Customer Rights

You have the following rights regarding your personal data:

Right	Description	How to Exercise
Access	Request copies of your personal data	Contact privacy@aetherwireless.com or use our mobile app
Correction	Update inaccurate or incomplete information	Account settings or customer service
Deletion	Request removal of your personal data	App settings or written request
Portability	Receive data in a structured format	Export feature in app or formal request
Marketing Opt-Out	Stop receiving promotional communications	Unsubscribe links or account preferences
Restrict Processing	Limit how we use your data	App privacy settings or customer service

Third-Party Sharing and Safeguards

We may share personal data with third parties only in the following circumstances:

- **Service Providers:** Contracted partners who assist in service delivery (billing, network maintenance, customer support)
- **Legal Requirements:** When required by law, court order, or regulatory authority
- **Emergency Situations:** To protect safety, security, or legal rights
- **Business Transfers:** In connection with mergers, acquisitions, or asset sales (with prior notice)

All third parties are bound by confidentiality agreements and must implement appropriate security measures to protect personal data.

Data Security

We implement comprehensive security measures to protect your personal data:

- **Encryption at Rest:** All stored data is protected using AES-256 encryption
- **Encryption in Transit:** Data transmission uses TLS 1.3 protocol
- **Multi-Factor Authentication:** Employee access to customer data requires MFA
- **Access Monitoring:** All employee access to personal data is logged and regularly reviewed
- **Security Audits:** Regular third-party security assessments and penetration testing

- **Incident Response:** 24/7 monitoring with established breach response procedures

In the event of a data breach affecting personal data, we will notify affected customers and relevant authorities within 72 hours as required by applicable regulations.

Data Retention

We retain personal data for the following periods:

Data Type	Retention Period	Legal Basis
Account Information	7 years after service termination	Contractual obligations, tax requirements
Payment Records	7 years from transaction date	Financial regulations, tax compliance
Call/SMS Metadata	18 months from creation date	Service provision, network optimization
Location Data	12 months from collection	Service provision, emergency services
Support Interactions	3 years from last interaction	Customer service improvement, legal claims
App Usage Data	24 months from collection	Service improvement, analytics

Children's Privacy

We do not knowingly collect personal data from children under 13 years of age. If we become aware that we have inadvertently collected personal data from a child under 13, we will delete such information promptly. For users between 13 and 18, we require parental consent before collecting personal data, except where such collection is necessary for service provision.

Policy Updates

We may update this Privacy & Data Protection Policy from time to time to reflect changes in our practices or applicable laws. For material changes, we will provide 30 days' advance notice through:

- Email notification to registered customers
- In-app notifications
- Prominent notices on our website
- SMS notifications for critical changes

The "Last Updated" date at the top of this policy indicates when the most recent changes were made.

Frequently Asked Questions

Q: How can I opt out of marketing communications?

A: You can opt out by using the unsubscribe links in our emails, updating your preferences in the mobile app, or contacting customer service.

Q: Can I request a copy of all data you have about me?

A: Yes, you have the right to access your personal data. Contact privacy@aetherwireless.com or use the data export feature in our mobile app.

Q: How long does it take to process a data deletion request?

A: We typically process deletion requests within 30 days, though some data may be retained longer if required by law.

Q: What happens to my data if I cancel my service?

A: Your data will be retained according to the retention periods outlined above, after which it will be securely deleted unless longer retention is required by law.

Q: How do you protect my location data?

A: Location data is encrypted, access is restricted to authorized personnel, and it is automatically deleted after 12 months unless required for emergency services.

Q: Can I use your services without providing location data?

A: Yes, while location data helps improve service quality, it is not required for basic telecommunications services. You can disable location sharing in your device settings.

Q: Who can I contact about privacy concerns?

A: Contact our Data Protection Officer at privacy@aetherwireless.com or write to: Aether Wireless Privacy Office, [Company Address].

Scope and Purpose

This Privacy & Data Protection Policy establishes Aether Wireless's commitment to protecting customer privacy and personal data in accordance with applicable laws and regulations. The policy applies to all customers, users, and subscribers of Aether Wireless services, including wireless communications, mobile applications, and related support services. Our purpose is to provide transparent information about what data we collect, how we use it, how we protect it, and the rights customers have regarding their personal information.

This policy serves as our legal baseline for data protection practices and covers all personal data processed by Aether Wireless, including data collected through our websites, mobile applications, customer service interactions, and network services. We are committed to processing personal data lawfully, fairly, and in a transparent manner, ensuring that data collection and use is limited to specified, explicit, and legitimate purposes. The policy outlines our obligations under applicable privacy laws and establishes the framework for our data protection governance, risk management, and compliance monitoring processes.

Data We Collect

Aether Wireless collects various categories of personal data to provide and improve our telecommunications services. The following table details the types of data we collect, the sources from which we obtain this data, and the purposes for which we use it.

Data Category	Specific Information Collected	Source	Primary Purposes
Account Information	Full name, email address, phone number, billing address, date of birth, government-issued identification (where required), account credentials, service preferences	Direct customer input during registration, account setup, or service changes	Account creation and management, service provisioning, customer authentication, billing and invoicing, customer support

Data Category	Specific Information Collected	Source	Primary Purposes
Payment Information	Credit/debit card details, bank account information, billing history, payment method preferences, transaction records	Direct customer input during payment setup, third-party payment processors	Processing payments, billing management, fraud prevention, regulatory compliance, financial record keeping
Device Information	Device identifiers (IMEI, MAC address), operating system version, device model, hardware specifications, installed applications, network connection type	Automatic collection from customer devices, network equipment	Service optimization, technical support, network management, security monitoring, troubleshooting
Usage Data - Call Logs	Call duration, timestamps, originating and destination numbers, call type (voice/SMS), network routing information	Automatic collection from network infrastructure	Billing and charging, service quality monitoring, fraud detection, network optimization, legal compliance
Usage Data - SMS Metadata	Message timestamps, sender and recipient numbers, message size, delivery status	Automatic collection from network infrastructure	Message delivery, billing, network performance monitoring, spam prevention, regulatory compliance
Location Data	GPS coordinates, cell tower triangulation data, network-based location information	Automatic collection with explicit customer consent through device settings	Emergency services (911), location-based services, network optimization, fraud prevention, service quality improvement
App Usage Data	Application usage patterns, feature interactions, crash reports, performance metrics, in-app purchases, content preferences	Automatic collection through mobile applications with customer consent	Service improvement, personalized recommendations, technical support, analytics, feature development
Support Interactions	Customer service call recordings, chat transcripts, email correspondence, support ticket information, issue resolution details	Direct customer interactions with support representatives, help desk systems	Customer service delivery, issue resolution, quality assurance, training purposes, service improvement

We collect personal data through multiple channels to ensure comprehensive service delivery and customer support. Data may be collected directly from customers when they create accounts, purchase services, or interact with our customer support team. We also automatically collect certain technical information when customers use our services, including network usage patterns, device information, and location data (where consent has been provided). Additionally, we may receive information from third-party sources such as payment processors, credit bureaus (for identity verification), and marketing partners (with appropriate consent mechanisms).

The collection of personal data is necessary for us to provide telecommunications services, maintain network security, comply with regulatory requirements, and deliver customer support. We only collect data that is adequate, relevant, and limited to what is necessary for the stated purposes. Customers have the right to refuse certain data collection activities, though this may impact our ability to provide specific services or features.

Q: What personal data does Aether Wireless collect about me?

A: Aether Wireless collects account information, payment information, device information, usage data (including call logs and SMS metadata), location data (with your consent), app usage data, and support interaction records.

Q: How does Aether Wireless protect my data?

A: We protect your data using AES-256 encryption at rest and TLS 1.3 encryption in transit. We implement multi-factor authentication, log and monitor employee access, conduct regular security audits, and maintain an incident response program with 72-hour breach notification capabilities.

Q: How long does Aether Wireless keep my data?

A: We retain account information for over 7 years, payment records for 7 years (regulatory requirement), call/SMS metadata for 18 months, location data for 12 months, support interactions for 3 years, and app usage data for 24 months.

Q: What rights do I have regarding my personal data?

A: You have the right to access, correct, delete, and port your data. You can opt out of marketing communications and restrict processing through your app settings.

Q: Does Aether Wireless share my data with third parties?

A: We do not sell your data. We only share data with contract-bound service providers who assist in providing our services, and we implement safeguards to protect your information.

Q: How does Aether Wireless handle children's privacy?

A: We do not knowingly collect data from children under 13. For minors, we require parental consent before collecting any personal information.
